

Summary -- Scope of Practice Task force recommendations: TNA, TMA and TANA

- A review/revision of rules governing supervision for prescribing
- A change in the law replacing “supervision” with “collaboration”
- Site visits using technology (rather than in person) for primary care, mental health and OB practices
- Annual joint meetings of the BON, BME, & DO boards to discuss common concerns
- Improved data collection
- Increased resources for BON & BME
- A list of physicians willing to be collaborating physicians to be maintained by BME & DO boards
- A three year moratorium on scope of practice bills by all three associations.
